There are two basins that cover the Bible, Seboyeta, Paguete, and Laguna areas, so I thought it best to show you on a map.

Here are the area measurements, as best as I can tell.

Homestake, San Mateo and Poison Canyon are in the San Mateo Creek Basin (321 sq. mi.)

Bibo, Seboyeta, Paguete and Jackpile Mine are in the Rio Paguete Basin (132 sq. mi.)

Laguna, New Laguna, Mesita, and El Rito are in the Lower Rio San Jose Basin (226 sq. mi.)

Encinal, Acomita, Seama and McCartys are in the Middle Rio San Jose Basin (328 sq.mi.)

I've attached the draft map... I'll print it after lunch.
